BALDWIN SEEKS MEETING WITH FRENCH LEADER

British Premier Recognizes Futility of Further Exchange of Reparations Notes and Will Meet Poincare

PRESS DISSATISFIED WITH REPLY TO BRITISH NOTE

Poincare Communication Leaves Situation Unchanged is Relief

LONDON.—By The Associated Press.—Recognizing the futility of a further exchange of lengthy notes on the reparations issue, Prime Minister Baldwin has decided to meet Poincare upon the former's return from his vacation at Aix les Bains, it became known Thursday.

The British premier will not formally ask the French colleague for an appointment but will make known his readiness to discuss the whole reparations problem in the light of the French premier's latest note.

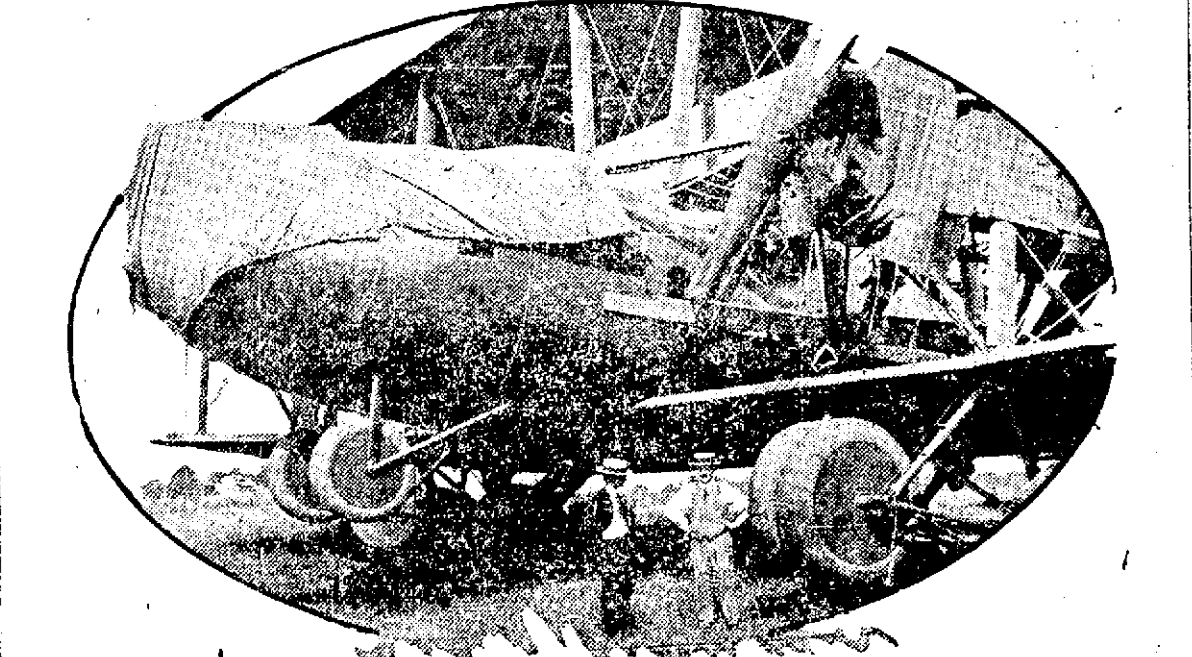

The British premier's note, which is France's last offer, is the suggestion that at the end of M. Poincare's note that France was ready to discuss the reparations problem on a basis of reciprocity, Lord Curzon, the secretary for foreign affairs, has participated in the conference stage to participate in some time at Rognonville, where he is at present recuperating.

Postpone Meeting for Present

It is felt there is no immediate need of such a verbal exchange of views and in fact that it would be preferable to postpone it until the British government's reparations questions have been carefully examined all the clauses of the French note and presented their findings to the cabinet.

The meeting, therefore, in all likelihood will take place after Mr. Baldwin has had his vacation and has considered and matured judgment of the cabinet before him.

WORLD'S LARGEST BOMBER WRITES A NEW CHAPTER IN AIR HISTORY

Above is shown the Barling Bomber, America's super-dreadnought of the skies, which was given its initial flight at Wilbur Wright field at Dayton, Ohio, on Wednesday. This was the first time that an airplane of such proportions has ever been moved by its own motive power.

MAIL CARRIED FROM COAST TO COAST IN THIRTY-FOUR HOURS

Flyer Lands With Mail Wednesday Night at Frisco; East-bound Mail Delayed

SAN FRANCISCO.—By The Associated Press.—Uncle Sam's transcontinental messenger service, which is responsible for the delivery of hundreds of New York letters in the business district here Wednesday night, as the result of a thirty-four-hour mail flight from New York, which was completed when a plane, racing along at a speed of 100 miles an hour, darted out of the sky by the Golden Gate at sunset Wednesday.

Thursday, as men in the commercial and financial districts opened letters from their New York offices, which were mailed Tuesday, they gave serious thought to giving most of their New York messages heretofore relayed on faster forms of moving orders.

San Francisco was startled by this unprecedented performance of the postal service augmented by aviation, for it was reminiscent of the early days of the pony express riders when mail was relayed from Missouri to California by horseback.

A revival of this famous pony express in Pageant has held the attention of San Francisco for days. The plane, piloted on its home stretch by Clair K. Vance, brought 400 pounds of mail from eastern points to Crissy field in thirty-four hours and twenty-three minutes after the first pouch had left Hempstead field, N. Y.

Pilot Vance was greeted by a crowd of federal and city officials augmented by 2,000 persons who had gathered on the hillside of Crissy field to witness the newest triumph of aviation.

The written word had been moved four days nearer to New York compared with train delivery, many weeks contrasted with the ancient pony express.

Reaches East Coast

HEMPSTEAD, N. Y.—Pilot Paul Collins of the air mail service, landed here at 12:22 o'clock Eastern standard time, Thursday afternoon, with the first batch of transcontinental mail from San Francisco which had been delayed Tuesday night by heavy fog at Laramie, Wyoming. Collins left Cleveland, where he replaced Pilot Warren D. Williams, at 8:27 o'clock this morning, Eastern standard time.

BERLIN GOVERNMENT TO REQUISITION ALL FOREIGN CURRENCY

Public Opinion Back of Stresemann in Plan to Build Up Money Reserve

BERLIN.—By The Associated Press.—Political opinion as reflected in the reichstag is behind Chancellor Stresemann in his decision to requisition foreign currencies in Germany in an effort to bolster the mark and build up a reserve with which to buy food abroad. The government hopes to obtain between two hundred and three hundred million gold marks by this drastic procedure.

Persons caught wilfully concealing or hoarding foreign money, will be dealt with severely, their fortunes will be confiscated and they themselves will be fined. The industrialists have been informed that these penalties will apply to them also.

Whether the reserves of "Big Business" in foreign countries are to be attached is not known, although it is believed that the industrialists have assured the government of their cooperation.

Advices received in London from Berlin last evening said that the German government had decided to inflict the death penalty on the more flagrant violators of the new measures to restore the currency. Direct and later dispatches from the German capital, however, contain no reference to such a decision on the part of the government, although some advices said that one minister had threatened the death penalty.

Speculators Blamed

DUESSELDORF.—By The Associated Press.—The food shortage in the Ruhr has been shown by information reaching the French authorities to be due largely to speculation instead of lack of receipts of foodstuffs, the authorities declared Thursday. It was stated that 824 carloads of foodstuffs entered the occupied area Wednesday, while thirty-two carloads were shipped out by merchants who were taking advantage of the higher prices elsewhere.

KLEEBER IS AGAIN HEAD OF SOCIETY OF COURT CLERKS

BARABOO, Wis.—Leonard Kleeber of La Crosse was elected president of the Association of Circuit Court Clerks of Wisconsin at the annual business session of the association here Wednesday morning.

UNEMPLOYMENT IN BRITAIN INCREASES 20,000 IN WEEK

LONDON.—The number of unemployed in Great Britain is again increasing. Twenty thousand persons joined the ranks of the idle last week, bringing the total to 1,212,000.

MADISON PAINTER OWNS TO SLAYING OF AGED RECLUSE

Mystery Surrounding Death of Sixty-year-old Hermit Solved With Confession

CONFESES AFTER LONG QUIZZING IMPLICATES FRIEND IN KILLING

Seek Connection Between Balzer Murders and Jaeger Death

BARABOO, Wis.—Alvin L. Jensen, 37 years old, and Jack Galloway, 34 years old, both of Madison, are in the county jail here charged with the murder of Robert Jaeger, a 60-year-old hermit, who was killed at his lonely shack near Black Hawk on the night of August 2.

Early Thursday morning, after hours of questioning by Sheriff W. H. Ode of Sauk county and H. J. Bohan, district attorney, Jensen confessed to having been at the Jaeger shack the night of the killing, and named Galloway as the man who struck Jaeger down.

Jensen was arrested in Madison late Wednesday and brought here. For five hours and a half he stubbornly denied any knowledge of the killing, but early in the morning his nerve began to fail him and his questioners broke through his defense.

Says Pal Killed Him

In his confession he denied that he had actually done the killing, declaring Galloway struck the aged hermit down as he came to the door of his shack in response to their knock.

As Jaeger opened the door of his home, Galloway, Jensen told the authorities, struck him over the head with a club. He fell to the ground, striking his head against an axe which was lying near the door.

The two men dragged him into the shack and Galloway struck him over the head repeatedly with the butt of a rifle, which the old man carried as he came to the door. The gun was broken by the force of the blows, Jensen said. As he stood near the body, Galloway ransacked the house and went through Jaeger's pockets for his money.

Planned Attack on Hermit

Both men under arrest are painters and were employed by Fred Klin, a Madison master painter. On the afternoon of the murder, the men planned the attack on Jaeger. Jensen at one time had been employed on Jaeger's farm and had heard that the hermit had large sums of money about his shack, due to his distrust of banks.

After finishing their work the two rented an automobile and drove about the vicinity of Madison, and later in the night drove to the Jaeger farm. Jensen declared that he did not get any of the money taken from Jaeger, and did not know how much Galloway got.

The arrest of the two men came as the result of investigation which began when it was noted that the imprint left by the tires of the machine which drove up to Jaeger's home were made by casings of comparatively new make. Check of the machines which carried this tire lead to the garage where the machine had been rented, and the identity of the man who used it the night of the murder was determined.

Involved in Balzer Murders?

Authorities are now trying to connect the men under arrest with the Balzer hammer murder, which occurred more than a year ago. Three members of the Balzer family, William, Julius and Mary, were killed by being beaten over the head with a hammer.

The similarity between the killing of Jaeger and the three Balzers lead the authorities to believe that either one or both of the men connected with the Jaeger killing may know something of the hammer murders.

Finger-prints of both men have been taken to be compared with those found on the hammer used in the Balzer killing.

Divorce "Ruined" Life

Jensen was born at Waupaca, and after he married he moved to Nebraska. (Continued on page six)

BARLING PLANE COMES BRAVELY THROUGH TEST

DAYTON, O.—Proved a success, the Barling bomber, largest airplane in the world, Thursday was ready to be placed among the fighting machines of the United States army air service.

Performance of the craft during the test flight Wednesday was beyond expectations of Walter H. Barling, the designer. Except for a degree of excessive vibration in a part of the tail, every unit of the plane functioned perfectly, according to members of the crew.

Makes Perfect Landing

The Barling bomber took off from Wilbur Wright field at about 6:20 o'clock after several minutes' preliminary tuning of the six Liberty motors by mechanics. The big plane rose easily from the ground after a comparatively short run and in a few minutes was about 2,000 feet in the air.

The bomber, following a twenty-five mile swing through the air, made a perfect landing at 6:45 o'clock.

Flies Over Dayton

The ship, after circling over the field apparently well in hand, started toward Dayton. First plans were for the plane to sail immediately above the field on its test flight to be ready for immediate landing in an emergency, but Lieut. Harold R. Harris, the pilot, was so confident of his ship that he took the big craft over the city.

The plane traveled at the rate of ninety miles an hour.

Accompanying Lieut. Harris on the trial were Lieut. M. S. Fairchild, a McCook field flyer, W. H. Barling, the designer, and Engineer Douglas Culbert.

Weights 40,000 Pounds

The Barling bomber was constructed in New Jersey and brought to Wilbur Wright field for assembling. It has a wing spread of 120 feet, is motored by six 40 horse power Liberty motors and weighs 40,000 pounds. The fuel tanks, located in the fore part of the fuselage, have a capacity of 2,120 gallons.

The plane carries seven machine guns and bombs totaling in weight 12,000 pounds. Engineers have said that the entire tailpiece of the Barling bomber could be shot away and leave the ship in condition for a safe landing.

The operation plans call for a crew of six men—two pilots, one observer, one navigator, and two gunners.

NEW SUBSTATION FOR POSTOFFICE UPON SOUTH SIDE

Creation of a fourth postal substation in La Crosse has been authorized, according to a special dispatch to The Tribune on Thursday from Washington. The official announcement declares the new office will be opened September 16. At the central post-office on Thursday the local officials verified the plan to establish the substation, and said it would probably be placed in the grocery store of Ignatz Jantz, 2500 South Third street. There are two postal substations on the north side and one on the south side at present.

'ROUND TOWN—

A RUNCH of "young fellows" are playing a new game of foursome back of the Y. M. C. A. every day and from the way they caper around, clap their hands in glee, harangue and berate each other is a sight worth seeing. The game is horse shoe, that's what it is, and the "young boys" are "Bill" Boyer, "Charlie" Collins, "Doc" Rosholt, "Pete" Brink, John Schriver, R. H. Kinney, and a host of other "young uns". Though the leaves are falling and the autumn is upon us, it daunts them not for the spring of the year runs not in their blood.

NEW TRANSLATION OF NEW TESTAMENT MADE BY AMERICAN

CHICAGO, Ill.—By The Associated Press.—An American translation of the New Testament from the original Greek and done in a simple, modern but vigorous style of English intended to be understandable to the average American reader has just been completed by Dr. Edgar J. Goodspeed, chairman of the New Testament department of the University of Chicago, it became known Thursday.

Dr. Goodspeed devoted three and one-half years to the task, having been invited to make the translation by the publication department of the university.

The translation is expected to be issued December 31.

TEMPERATURE LAST TWO DAYS SETS LOW RECORD FOR SUMMER

Tuesday Night Coldest in August Since 1915; Thermometer Toboggans Down to 43

ONLY FIVE TIMES SINCE 1873 COLDER THAN TUESDAY NIGHT

Midwest Shivers as Temperatures Drop; No Crops Damaged

WEDNESDAY night was one of the coldest of the summer according to the local weather bureau. The thermometer registered 46, Tuesday being the coldest with a temperature of 43. Tuesday was the coldest day in August since 1915 when the thermometer registered 35 on the 30th of the month.

Only five times since 1873 has it been colder in the month of August and only twice has it been equaled according to a report from the U. S. weather bureau here. Although police north and east of La Crosse had a light touch of frost, none was reported in this city or in the surrounding country.

Chicago Shivers

CHICAGO, Ill.—Although warm weather was promised in forecasts Thursday, the eastern, southern and middle-western sections of the country continued to shiver and don overcoats as further records for cool August weather were broken and light frosts were reported from sections gripped by the cool wave.

No damage was done to crops by frost in Minnesota, Wisconsin and Michigan, where the thermometer reached the lowest points. Drops of 20 to 25 degrees in the Gulf and South Atlantic states followed a few hours after moderate summer weather.

No Damage to Crops

ST. PAUL, Minn.—Promise of warmer weather today was expected to end the "cool wave" that has given the Central Northwest an autumnal zest the past few days. A light frost was experienced in some sections of Minnesota, but without damage to crops.

AGED FARMER KILLS DAUGHTER; IS SLAIN BY HER HUSBAND

BENTON HARBOR, Mich.—John Garrett, 74, Wednesday shot and killed his daughter, Mrs. Henry Rector, and a moment later was slain by her husband after he had attacked the latter with a pitchfork.

The killing occurred at the farm of the Rectors in Solus township ten miles east of here. The aged man is believed to have brooded over family troubles.

SEVEN IN RACE FOR \$1,700 POSTMASTER POSITION

WASHINGTON, D. C.—The civil service commission on Tuesday announced that seven persons took an examination for postmaster eligibles at Belleville, Wis., an office paying a yearly salary of \$1,700.

Big Irrigation Project Dam Breaks And 20-Foot Wall of Water Sweeps Down Upon Colorado Valley Towns

PUEBLO, Col.—Fertile farms and ranches in the Arkansas valley in southeastern Colorado experienced one of the worst floods in recent years last night and early this morning when an immense irrigation reservoir on the Apishapa river north of Fowler, cracked and precipitated a great rush of water down the valley.

The reservoir was more than 100 feet deep and had a storage capacity sufficient to irrigate 20,000 acres. It drains a 90-mile water shed. Recent rains and cloudbursts in the region imposed too great a strain on the structure and part of it gave way.

A wall of water twenty feet high rushed down the valley when the dam collapsed. The break had been foreseen, and telegraph warnings had been sent out so that residents in the path of the flood had time to escape to higher ground. No loss of life had been reported early this morning. Probable damage was estimated at \$1,000,000.

Thousand Homeless

FOWLER, Col.—By The Associated Press.—Approximately one thousand persons are homeless today and damage estimated at \$1,000,000 has been done by flood waters which rushed down the valleys of the Apishapa and Arkansas rivers yesterday and today following the breaking of an irrigation project dam near here.

Five hundred persons have moved out of the danger zone in North Platte according to word received here, and approximately that number fled from their homes in the valley below the dam.

Observers saw a dozen houses and many bodies of cattle and horses as well as huge trees tumbling along on the crest of the flood after the dam broke yesterday.

U.S. WON'T ACT TO KEEP MINES IN OPERATION

Miners and Operators are Told Government Won't Intervene Further in Wage Negotiations

CONFERENCE OF GOVERNORS IS CALLED AT WASHINGTON

Will Discuss Plans for Distributing Fuel Substitutes if Strike Comes

WASHINGTON.—Although not yet ready to reveal the full scope of its plans, the United States government is preparing to move decisively to prevent serious consequences from the threatened suspension of anthracite production September 1.

ATLANTIC CITY, N. J.—Semi-official notice that the federal government would not intervene further in anthracite wage negotiations to prevent stoppage of the mines September 1 today reached Atlantic City.

The news was conveyed to both the policy committee of the mine operators and the officials of the miners' union who broke off negotiations for a new wage contract on Tuesday, and left the unrelieved prospect of a shut-down in the industry next week. The United States coal commission, both sides were told, could go no further in an endeavor to enforce peace, since the renewal of the wage contract negotiations which was taken at its intervention last week had merely served to precipitate another break.

Notwithstanding, the operators' group intends to remain in Atlantic City at least until the end of the week, in an effort to show that the employers seek every means of reopening discussion.

John L. Lewis, president of the United Mine Workers and the scale committee of the union, it was said, would probably stand by also until Friday.

But there was no change of attitude in the front which the employers group and the union spokesmen have opposed to each other. There have been no meetings together of the parties concerned, though the operators said they would ask another meeting if even a "pretext" could be found, though their attitude would be unchanged.

Call Governors to Capital

WASHINGTON, D. C.—Protection of the public against a shortage of heating fuel next winter by insuring an adequate distribution of hard coal substitutes in case of a tie-up in the anthracite fields was the uppermost concern Thursday of the government.

All aspects of the situation were being closely studied by officials as plans were forwarded for the conference in New York next Tuesday to which the governors of all the principal anthracite states were invited by F. R. Wadleigh, federal fuel distributor Wednesday to send representatives to assist in formulating an emergency distributing system.

The invitation for a conference with representatives of the interstate commerce commission and the principal eastern railroads to consider tentative plans for the institution of central distributing agencies in each state, with supervisory headquarters in Washington, went to the executives of eleven states, the New England group and those along the middle Atlantic seaboard.

It was dispatched after conferences during the day between President Coolidge and heads of the government agencies concerned.

To Educate Public

In addition to considering the tentative scheme of distribution already worked out by Mr. Wadleigh, the New York conference, the governors were informed, will endeavor to evolve practical plans for instructing the public in the use of substitute fuels for anthracite. This was seen to be in line with the view held by the administration from the first that the public itself by turning to substitute fuels could exert strong pressure on any strike situation that developed.

While hope still survived in administration circles that the anthracite miners and operators would find a way to avert a tie-up of the mines on September 1, there was no indication today of any intention to further government intervention in the situation at this time.

To Discuss Bryden Plan

Governors who will be invited to the New York conference include the executives of New York, New Jersey, Connecticut, Delaware, Maryland, Rhode Island, Vermont, Pennsylvania, Massachusetts, New Hampshire and Maine.

The presence of railway experts and a member of the interstate commerce commission at the meeting shows that the government is to institute what has become known as the "Bryden plan," due to the fact that John C. Bryden, president of the National Coal association and chairman of the bituminous operators' special committee, recently told the

(Continued on page six)

SAYS RAIN MAKERS ARE THE COUNTRY'S GREATEST GAMBLERS

Veteran Weather Man Declares Methods of Producing Rain are Fakes

GREEN BAY, Wis.—Inventors of methods and devices to produce rain are "the world's greatest gamblers," says E. W. Conrad, veteran weather man whose experience as a weather forecaster includes service in many cities in the United States. After serving in the federal army during the civil war, he entered the United States weather service and has "out-gambled" the elements ever since that time.

Speaking of efforts made by inventors to induce precipitation by firing guns and exploding bombs, Mr. Conrad said:

"The theory of these fellows may be correct for I remember that during the civil war, heavy rain followed every battle during the fighting. I remember that it rained for a solid week in Washington after heavy fighting in Virginia.

"But even supposing the heavy firing of guns did produce rains and caused clouds to gather, that doesn't make the rain maker's job legitimate. He cannot begin to simulate the firing conditions of a battle. What are his few tiny bombs compared to the immense artillery spread over the country for miles and miles? That is why I call rainmakers gamblers."

Inventors have within recent years claimed that the firing of bombs into the air has produced precipitation because of the concussion attendant upon the experiment.

"I care not for the apparent successes scored by rainmakers in various parts of the country," Mr. Conrad continued, "their failures outnumber these instances so far that it is unreasonable to believe in them. Lucky accidents may follow these attempts, but the failures are not reported."

PAPA'S WEDDING GIFT WILL EAT THIS PAIR POOR

NEW YORK—When Bernard Rube's daughter, Elsie, was married to Carl F. Strohm of Newark, N. J., Sunday, he wanted to give them a more substantial wedding present than parlor furniture or cut glass, so he decided on a baby elephant.

"The animal, in addition to being a pet also can be regarded as a good investment, for it can always be sold for more than it cost," he said, as he bade them farewell as they sailed on their honeymoon trip to Europe. "It will be years before the elephant grows up, and as the animals live for several hundred years, it will be in the family for four or five generations."

CIRCUS IS COMING TO TOWN; WILL BE HERE WEDNESDAY

Sparks Circus to Show Here; Founder of Show Was Well Known Naturalist

Just imagine a circus proprietor of a retiring disposition, one who abhors personal publicity to such an extent that he refused the press the use of his photograph. Yet American circus history truthfully records such a man as the founder of the Sparks Circus which will visit La Crosse on next Wednesday.

Consequently few people are aware of the fact that John H. Sparks who founded the circus which bears his name and John H. Sparks the celebrated naturalist, so frequently quoted by the late Theodore Roosevelt, were the same man. Without doubt thousands who have found interest in the narrative of the animal kingdom, no man was ever better fitted to exhibit them to the public than John H. Sparks.

A Naturalist

Old timers who trooped with the show in its early days recall that "Governor" Sparks as he was known to the circus men, spent most of his time in the menagerie. For hours at a time he would often study some particular animal at close range and take notes on a pad of paper. He took extreme interest in the zoo at all times and had the attendants use more than ordinary care in con-

DO YOUR FEET HURT?

When shoes pinch or corns and bunions ache, get a package of Allen's Foot-Ease, the antiseptic, healing powder to be shaken into the shoes. It takes the sting out of corns, bunions and callouses, and gives instant relief to smarting, aching, swollen feet. At night, when your feet ache and burn from excessive dancing or walking, sprinkle some Allen's Foot-Ease in the foot-bath and you will solve your foot troubles. Over 1,500,000 pounds of powder for the feet were used by our Army and Navy during the war. Sold everywhere. Trial by return and a Foot-Ease Walking Ball sent free.

ALLEN'S FOOT-EASE, Le Roy, N. Y.

Don't miss the Special Blanket Sale this week. AT SPURGEON'S.

CIRCUS FOUNDER

John H. Sparks, a Famous Naturalist and Founder of the Circus Which Bears His Name, Showing Here Next Wednesday.

serving the health of the animals. Intimate friends of the "Governor" aver that he selected his zoological

specimens on points with fully as much care as is exercised by the judges at a dog show. They declare he spent vast sums of money in keeping up the standard of excellence which has always characterized the Sparks menagerie and which is really an assembly of the blue ribbon winners of wild animal kingdom.

"Governor" John H. Sparks' love for wild animals was unfortunately the cause of his untimely death a few years ago, when a scratch from a playful lion cub developed blood poisoning.

Manager Charles Sparks announces that visitors to the circus are to be given a full hour's time to view the famous menagerie before the arena performances commence. Hundreds of new and novel features are promised in connection with the cir-

GIRLS! MAKE UP A LEMON CREAM

Lemons Whiten and Beautify Skin; also bleach Tan, Freckles

Mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents, shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin softener and complexion beautifier. Massage this sweetly fragrant lemon cream into the face, neck, arms and hands, then shortly note the youthful beauty, softness and whiteness of your skin. Famous stage beauties use this harmless lemon cream to bring that velvety, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

"GRAVEYARD" FOR AUTOMOBILES TELLS STORY OF WRECKS

Fifteen Machines, Damaged Beyond Repair, Await Owners in Theresa Yard

HERESA, Wis.—This city has become the potter's field for automobiles. Piling a big yard in the rear of a local garage are more than 15 unclaimed machines and most of them are wrecked beyond repair.

In the graveyard is a touring car that on June 7 turned turtle at the bottom of what is known as the Theresa hill and cost the lives of two people. Alongside of this one is another that had a similar accident and took a toll of one life. Both of these cars have remained unclaimed since the accidents.

In one corner of the yard is a car that skidded into a culvert several months ago and was demolished in the crash although no one was injured. One of the occupants was a man 55 years old.

Nearby is a heap of junk that can be identified as a car only by the engine and part of the frame. This car belonged to a construction crew and was taken for a joy ride by a youth 17 years old. The boy drove the machine into a culvert and it was smashed so badly that the company never took the trouble to order it repaired.

RANGE PLANS MINE INSTITUTE

HERRING, Minn.—Range towns are making plans for the coming of the Lake Superior Mining Institute to this section of the state Aug. 29, 30 and 31. Headquarters for the visitors will be at Duluth. The party will leave Duluth at midnight in a two section special train for Babitt, thence to Virginia and from the latter point will come to Herring. Inspection of the mines will be made in the forenoon.

DETROIT WOMAN "PEPPER" BRIGADE RAIDS BROTHELS

DETROIT, Mich.—The "Cayenne Brigade," made of housewives of Hamtramck, local suburb, was Wednesday reinforced in its efforts to rid the neighborhood of brothels and wide open saloons.

Armed with boxes of cayenne pepper and improvised clubs, a score of housewives took the law into their own hands after Hamtramck police refused to make raids on information given by the women.

Members of the brigade were attacked and made to flee, "landladies" of the various houses called Hamtramck police and had fear of the brigade leaders arrested, but the women were released and commended for their actions when arraigned before justice court.

According to charges made by the housewives the brothels and pre-Volsteadian saloons have operated unmolested in their neighborhood for six months.

OLESONS TO CARLETON

NORTHFIELD, Minn.—Mr. and Mrs. Peter Oleson of Cloquet, the latter widely known as Mrs. Anna Dicksey Oleson, democratic candidate for the United States senate in 1922, will move early in September to Northfield, where Mr. Oleson will have a position at Carleton college. Their daughter Mary will be a freshman at Carleton.

COMINGS CLAIMS GOOD SUPPORT IN STATE METROPOLIS

Returns to Madison from Milwaukee With Assurances of Aid in Campaign

MADISON, Wis.—Lieut. Gov. George P. Comings returned from Milwaukee Thursday expressing satisfaction in the support he had received in the Cream City in his campaign for the governorship.

"I am certainly delighted and grateful for the way Milwaukee progressives are rallying to my candidacy and to the principles for which I stand as enunciated in several interviews which I have given to the press," he declared.

"While in Milwaukee I had the pleasure of not only meeting a group of business men who entertained me at a luncheon but I also met a number of labor advocates of the city and I find I shall receive every bit as an enthusiastic support in labor circles as in farm circles."

"I am continuing to receive by every mail letters from farmers and wage workers promising me their support and commending the stand I have taken on state issues."

Among those at the luncheon given Mr. Comings in Milwaukee were A. J. Sweet, who in 1920 was active in the organization of the Wisconsin Committee of 48; A. J. Schmitz, of the law firm of Schmitz, Wild and Gross; Edward Greib, Edith Stern, Emil Juergens, Ernest Conrad, Fred S. Hunt and August Schort.

Mr. Comings will speak at a harvest picnic at Soldiers' Grove in Crawford county Thursday and next Saturday he will speak at Rock Falls at the annual creamery picnic.

WILLMAR, Minn.—By a vote of 5 to 2, the city council refused to accept the \$20,000 bequest left by the late Governor A. E. Rice for use in the construction of an armory in this city.

A CHILD IN PAIN runs to Mother for relief. So do the grown-ups. For sudden and severe pain in stomach and bowels, cramps, diarrhoea, CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY. It has never been known to fail.

**BABE RUTH ADVANCES HIS
AVERAGE OVER HEILMANN IN
GAME AT DETROIT WEDNESDAY**

CHICAGO, Ill.—By The Associated Press.—Babe Ruth was the only one of the New York American team to get any advantage out of the New York Yankees' game in Detroit Wednesday. He outhit Harry Heilmann and advanced his average, while the Detroiter went hitless in three shots out

The Braves defeated the St. Louis Cardinals in Boston, 3 to 1. Genewich pitched a brilliant game for his fourth straight victory. Fast fielding, including three speedy double plays, greatly helped him.

In St. Louis the St. Louis Americans won two from the other Boston team 5 to 7 and 6 to 1. The first game was a twelve inning affair, and Red Sox tying in the ninth with two runs, and each side getting one run in the

The Washington Americans defeated the Cleveland Indians 8 to 5, in the first inning and four in the last, winning in a rush after being led by one run.

In Chicago the Athletics trimmed the Chicago Americans in a 13 inning

second. Tris Speaker shot a liner over first. Judge grabbed it, touched first, doubling Connolly and then threw to Beckinbaugh, who retired Jameson before he could return to second.

game, 3 to 2.

Other clubs were not scheduled.

Bullet Joe Rush weakened in the sixth inning and the Detroit Americans hammered his offerings all over the lot, and took the first game of the series from the New York Americans. Both failed to get any homer.

Pitcher Genewich won his own game when he batted in three runs for Boston which defeated the St. Louis Nationals 3 to 1. It was Genewich's fourth victory.

Recent talk in the U. S. of adopting the Constitution of the United States has quieted down.

Eddie Rommell's great pitching was too much for the Chicago Americans and Philadelphia nosed out a close victory after losing thirteen innings. Miller's single, his steal of second and a hit by Welch decided

The St. Louis Americans grabbed off a twin bill from Boston, being forced to go twelve innings for the verdict in the first game, but took the second in regulation time. Urban

Washington jumped into the lead against Cleveland, but the latter came back strong and tied the count in the eighth after an uphill fight. Washington came back with a ninth leading rally, scoring four runs and winning easily.

CARNIVAL OUTFIT JUMPS CONTRACT; FAIR THREATENED

**Trempealeau County Fair Gets
Away to Poor Start as Carni-
val Fails to Appear**

OTHER FEATURES OF FAIR OF EXCEPTIONAL QUALITY

**Splendid Racing Card is Offered
to Dirt Track Fans**

GALESVILLE, Wis.—The sixty-fifth annual Trempealeau County fair played in hard luck this year. There is nothing the matter with the fair or the program. A livestock show worthy of a state fair is on the grounds; the boys' and girls' clubs in exhibits and demonstrations are in themselves a show; the main hall is overflowing with women's work and other exhibits. The baseball program started off with a 3 to 2 number between Galesville and Trempealeau, with Galesville winning. The racing program and several free acts in front of the grandstand afforded a plenty of entertainment, but for all these the county fair opened as though a wet blanket had been thrown on it.

The Northern Exposition shows, a big carnival company for which a great space had been reserved, and which was to furnish rides for the children, and other special features, jumped its contract without warning and failed to show up. The fair management was powerless to substitute at the last moment, and the rep of the fair went into thin air.

A fair without a pike of some sort doesn't appeal, and state legislation has handicapped county shows. Another handicap came in moving the opening day one notch ahead. All their lives patrons of the Trempealeau county show have started the management pressed the button Tuesday. Although thoroughly advertised, several thousand people could not be made to believe that Tuesday was anything but an entry day, and instead of 6,000 attendance on the opening day there was not more than 600.

Tuesday's racing program included the 2:30 pace or 2:24 trot and the 2:16 pace.

The 2:30 mixed race was won by Richard, with Casswell second, Little Patch third and President Lockhart fourth.

The other harness event, the 2:16, went to Phyllis Patch, with Ben K. second, Dr. Thornburg third and Sir Dell fourth.

Races
Wednesday brought the fair attendance up to the usual standard. At noon more than 4,000 had passed through the gates.

The 2:16 trot, Star K. was first, Ellinora was second, Shaker Boy was third and Dr. Thornburg was fourth.

**MUNICIPAL SCANDAL
TO HAVE AIRING IN
WISCONSIN CAPITAL**

MADISON, Wis.—A thorough airing is promised at a future meeting of the city council over alleged municipal scandals.

Patrolman William Griffin up before the police and fire commission on a charge of drunkenness admitted the charge but said that he became intoxicated after partaking of punch at a city hall picnic attended by aldermen and city officials. Dr. E. H. Jones, president of the commission, then gave out a statement censuring city officials for "causing an officer to disgrace himself." Dry organizations are said to be preparing statements concerning their views of the matter.

On the other hand members of the city council expressed surprise over the discovery that a member of the Ku Klux Klan had been given special police powers by the mayor. Mayor Kittleson revoked the special police authority when he was informed that the man was a member of the Klan.

**STREET RAILWAY SEEKS
DULUTH RATE CHANGE**

DULUTH, Minn.—Hearing of evidence in the case of the Duluth Street Railway company against the Minnesota railroad commission and the city of Duluth in federal district court before Judge T. D. O'Brien, master in chancery, to have the commission's order of a six cents fare and five tickets for 25 cents set aside, as being confiscatory to the company's property, brought out that the company estimates its valuation at \$10,001,245, while the city places a value of \$8,105,578 on the holdings of the company.

MOVIES

"HOMEWARD BOUND"

"Homeward Bound," had a highly successful premier at the Rivoli theater last night. Thomas Meighan is the star with Lila Lee his leading woman.

The story, by Peter B. Kyne, is one of the sea, bringing the popular star to the screen in a role like that which he portrayed in his screen success, "Cappy Ricks." As the captain of the Nancy B., a schooner that no other man will take out because of its unseaworthy condition, Mr. Meighan, playing Jim Relford, salvages a luxurious yacht owned by Rufus Brent, his employer. In this way Relford procures the necessary "stake" to convince Brent that he is worthy to become his son-in-law.

CASINO TODAY

Picture-goers will have no regrets in seeing Monroe Salisbury in "The Great Alone." As "Silent" Duval Salisbury reaches the apex of his screen career, giving an interpretation of the character of the half-breed which is a belated bit of acting.

We must pause to mention a name new to us, but which we believe will be one to conjure with—Maria Dragza, Salisbury's leading lady in this production. She has not yet celebrated her sixteenth birthday, a fact which is easy to believe. But her emotional powers are so great and her artistry so perfect that it might well be the entry of more mature actresses. Another feature on the same program is "Red Russia," a Fox special reel.

"A TAILOR MADE MAN"

"A Tailor Made Man," with Charles Ray comes to the Riviera Theater on Friday heralded as one of the outstanding photoplays of the year. From all reports, Mr. Ray has outdone himself artistically, portraying the role of the dreamer, John Paul Bart, with a charm that is said to be well nigh unforgettable.

"A Tailor Made Man" was adapted to the screen from the stage play by Harry James Smith.

"WHEN DANGER SMILES"

The William Duncan company went far afield for the locale of "When Danger Smiles." The Southern California mountains and deserts appear in "When Danger Smiles," which plays the Majestic today and till Saturday.

The story concerns a young packing house executive from an eastern city who goes to the far west on business and takes in a cowboy's life. He lost his heart completely

to a wisp of a Spanish maid, and in so doing involved himself in a series of adventures too weird for description. Instead of studying the cattle industry he was compelled to concentrate his best energies on remaining alive and saving the life of the girl.

POLICE CALLED TO AID IN WAR AGAINST FEATHERED VANDALS

RACINE, Wis.—Efforts of the police and fire departments here to break up the operations of a band of alleged vandals operating here have been unsuccessful. Recently calls were received by both departments from one of the best resident districts of the city asking for help.

It was explained that thousands of black birds were stripping vegetable gardens and fruit trees, and at night valuable trees were endangered by the weight of the birds which roosted in them.

Both departments have co-operated with the residents in an effort to drive away the birds, which refuse to leave. The fire department opened its most effective attack, with streams of water, while the police discharged firearms, and fire works without effect.

GOURAUD RETURNING

NEW YORK.—General Henri Joseph Gouraud of France, who has been the guest here of the Rainbow division, sailed.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

LIONS' CLUB HAS SCENIC DRIVE FOR TOURIST VISITORS

**Three Mile Drive Through City
Streets Meant to Show Tour-
ists Sights of the Town**

The La Crosse Lions club has arranged and marked a scenic drive around the city which is designed to show visiting tourists the greater part of the town, without extending the drive over too great a distance, from the starting point at the courthouse to the termination at the tourist park on Pershore Island; the drive is only three miles in length.

The route followed is from the courthouse to Main street, and out Main to West Avenue, then south on West Avenue to Jackson, east on Jackson to Seventeenth and north on Seventeenth to State, passing the normal school, from Seventeenth and State, the route leads down town again, through the business district and over the bridge to the camp.

PREDICTS CONGRESS WILL VOTE AS IT DRINKS

WASHINGTON, D. C.—That more members of the next house will vote as they drink was the declaration on Tuesday of Representative Hill of Maryland, one of the champions of opposition to the Volstead law.

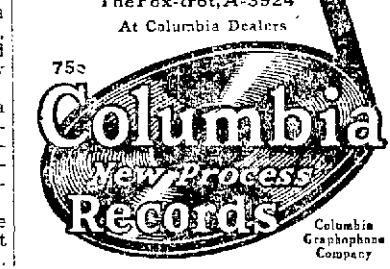

"This being true," he said, "I believe there is a good chance to amend the Volstead act, permitting light wines and beer."

Mr. Hill has before alluded to members who vote dry and then go out to get drinks of bootleg whisky.

"Yes! We Have No Bananas"

Still getting echoes both as a song and a fox-trot! But have you heard Furman and Nash sing it or the Latin Orchestra swing it into a captivating dance on Columbia Records? If you're one of the few who haven't, just ask for—

OFFICERS HUNTING CLUES TO MURDER FIND CHEAP "MOON"

MADISON, Wis.—A score of detectives, county and city officials who have spent several weeks in Sauk county attempting to solve the murder of Robert Jaeger, 60, at Black Hawk, failed to unearth tangible murder clues but found what they described as "first class eye moonshine" selling at 15 cents a pint.

Sheriff William Ode called for help from the state prohibition department and shacks of Kentuckians along the river bank were raided. A still was found in operation and well beaten paths through the woods indicated that the still had not worked in vain.

TWO GOVERNORS TO SPEAK AT MEETING OF LUTHER LEAGUE

TOBACCO HARVEST ON THIS WEEK IN SOUTHERN COUNTIES

Work Will be Well Under Way in all Sections by End of Week; Fair Crop in Sight

JANESVILLE, Wis.—The work of harvesting Wisconsin's tobacco crop has started in the southern section of the state and will be well under way in all localities before the end of this week, with a promise of more than a fair crop.

The southern section of the state has been especially favored by better weather conditions during the growing season than almost any other part of the state. The crop in this section is of the sort known to tobacco men as a "real good binder crop."

The crop over the entire state is somewhat spotted, but there are many sections in the northern part of the state where weather conditions were favorable and a good crop has been grown, and is about ready for general harvest.

Next week, it is expected will see the harvest in full swing if weather conditions permit.

"I have not seen the northern fields but understand from the buyers and others, southern Wisconsin produced this year as good a quality of tobacco as there is in the state," declared John Arthur, local manager of the Northern Wisconsin Co-operative Tobacco Pool. "It has always been conceded that the southern belt, under favorable weather conditions, could produce as good tobacco as the northern section, and this season proves it."

One of the heaviest yields of tobacco is reported on the farm of E. D. Wandell, route 5, town of Harmony. The Gazette Farm department would be pleased to hear reports on the yields in southern Wisconsin.

BIGGEST FAIR EVER STAGED IN COUNTY OPENS AT PRESTON

PRESTON, Minn.—With Preston already crowded with visitors a record-breaking attendance at the Fillmore county fair which opened Wednesday is practically assured.

Ideal weather and larger exhibits of cattle, hogs, sheep and other livestock and farm products than ever before, according to Frank Bach, secretary, have made this year's fair the biggest ever held in Fillmore county. Every available inch of space is filled with exhibits and displays.

A new amphitheater, built this year, with a seating capacity of 1,500, filled to overflowing early Wednesday afternoon by spectators assembled for the baseball game between Harmony and Canton, the racing program of trotting, pacing and running races, free attractions and band concerts. The Harmony, Lakeshore and Preston bands furnished the music on Wednesday's program.

The fair will continue Thursday and Friday with ball games, races, band concerts and special attractions each day.

RUM PIRATES GOT \$20,000 POLICE PROBE SHOWS

GLoucester, Mass.—The rum pirates who boarded the Nova Scotia schooner J. Scott Hankenson about fifteen miles off Rockport on Monday and shot down the captain and cook carried away about \$20,000 cash from the craft, the police said.

NOVA SCOTIAN SHIP BOARDED BY PIRATES SKIPPER IS ROBBED

YARMOUTH, N. S.—The Nova Scotia schooner J. Scott Hankenson, victim of pirates off Rockport, Mass., last Monday, has arrived at this port. The Hankenson had cleared three weeks ago with a cargo of Scotch.

"Nassau" read her clearance papers, but she got no farther south than Massachusetts.

Last Monday a motorboat came alongside. Two men stepped aboard and descended into the schooner's cabin with her skipper, Arthur Moore. The cook, Harry Harm, at the time was in the cabin.

Suddenly Frank Moore, first mate, and his crew of three heard shots coming from the cabin where their captain called for help. They started toward him but seven armed men, hidden aboard the visiting craft, sprang to the schooner's decks and drove the men down into the fore-cabin. Then the pirates departed with the captain's money.

JAPAN UNEASY OVER RUSSO-CHINO PARLEY

MOSCOW.—According to latest information from Russian sources in the far east, Japanese quarters are showing uneasiness over the forthcoming Russo-Chinese negotiations. Meantime, it is alleged, the exploitation of the oil resources in northern Sakhalin is being speeded up, under protection of the military. The oil is reported to be of the highest quality.

THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant, and purifier of nature, but few realize its value when properly prepared and taken into the human system for the same cleansing purposes.

Charcoal is a remedy that the most you take of it the better; it is not a poison at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, and after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion. It whitens the teeth and further acts as a natural and entirely safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is Stuart's Absorbent Lozenges; they are composed of the finest quality Willoughby charcoal powdered to extreme fineness, then compressed in tablet form or rather in the form of large, pleasant-tasting lozenges. The charcoal being sweetened to be smooth and palatable.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

Many physicians advise Stuart's Absorbent Lozenges to patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. They are also believed to greatly benefit the liver. These lozenges cost but thirty cents a box at drug stores, and you get more, and better charcoal, in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets.

Ginghams, in small and medium checks in wide range of colors, at 25c per yard

SPURGEON'S.

CHICAGO MAN ASKS WIFE TO SHARE HER HOME WITH RIVAL

CHICAGO, Ill.—Walter R. Owens' suggestion to his wife that "the other woman," mother of his unborn babe, should be admitted to their household—"all three of us live together"—was answered Wednesday by the wife, Nellie Owens, when she filed suit for divorce in the superior court.

Despite their thirteen years of married life, Mrs. Owens complains in her bill, filed by Attorney Charles E. Erbe, that her husband, western manager for a New York manufacturer, has been unduly intimate with Miss Hazel Howar.

GIRL SWIMS MILE TO GET HELP FOR 4 ADRIFT IN BOAT

NORTHPORT, N. Y.—Fourteen-year-old Margaret Candela of Brooklyn swam a mile through the chilly waters of Long Island sound to obtain aid for her 12-year-old brother, a 12-year-old girl cousin, and Misses Caroline Spang and Mary Rich, school teachers, who were adrift in a rowboat, it was learned Wednesday, after they had been picked up off Port Jefferson.

FOUR COACHES OF WINNIPEG FLYER TURN INTO DITCH

ANNANDALE, MINN.—With more than a score of persons injured, officials of the Minneapolis, St. Paul & Sault Ste. Marie railway Thursday were investigating the derailment of the four rear coaches of their Winnipeg flyer just east of here Wednesday evening.

It was the unofficial belief that a broken rail sent the three Pullmans and observation car from the tracks, toppling them on their sides in the ditch with injury to nearly half of the passengers occupying them.

Mrs. B. F. Scoggin, of Oak, Neb., was the most seriously hurt, suffering an injury to her skull. A score of others were injured less seriously.

COOLIDGE REAPPOINTS MRS. ROGERS, "ANGEL OF WAR HOSPITALS"

WASHINGTON, D. C.—President Coolidge has reappointed Mrs. John Jacob Rogers, wife of Representative Rogers of Massachusetts, as special visitor to army hospitals, reaffirming the roving commission given Mrs. Rogers by President Harding nearly two years ago.

It was recalled by the president that the appointment grew originally from the fact that whenever President and Mrs. Harding visited Walter Reed hospital, as they did frequently, they invariably found Mrs. Rogers there, and had opportunity to observe the good accomplished by her visits.
